# Opulent Wine Room & Cellar Design

By Kirsten E. Silven

8 Rustic meets eclectic in this stunning wine cellar, which boasts specialty touches at every turn, including a decorative hammered-tin ceiling, faux paint on the walls that provides a distinctive aged appearance, reclaimed wood racking and soft blue lighting on custom chandeliers that lends a cool, sophisticated air to the home's lower level. Photo courtesy of Scottsdale Wine Cellars.

9 A tasting table and rustic brick on the walls, floor and ceiling lends a custom feel to this exquisite wine cellar, which also features several rotating, circular displays designed to make favorite vintages easily accessible. Photo by Karl Neumann Photography. Home designed and built by Zoske Construction.

10 Custom crafted using reclaimed white oak to create a rustic feel, this elegant wine cellar also boasts inlaid brick flooring in a decorative herringbone pattern, with a custom chandelier and wall sconces designed to resemble the candles that once illuminated the wine cellars of yesteryear. Photo by Woodruff-Brown Architectural Photography. Design by Charles Hilton Architects.
