Project Of The Year

Robert J. Levine Home Construction

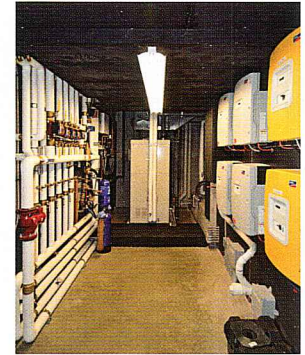

Levine exterior

Robert Levine masterfully built this French Normandy **CUSTOM HOME OF THE YEAR** on Lakeside Avenue in Greenwich. It is designed by talented architect, Charles Hilton with slate roof, half timbers and terra cotta brick with heavy oak doors. Reclaimed timbers frame the entry hall, which opens to a spectacular antique timbered Great Room with French plaster walls, a walk-in limestone fireplace and plank & beam ceiling. The kitchen features concrete and zinc countertops and a pizza oven.

A magnificent granite tower, which won **Best Exterior Home Feature**, is home to a stunning master bedroom with spiral stair leading to an exquisite pyramid ceiling tower room office that won **Best Interior Feature**. See photos on opposite page.

Levine Great Room

Levine co-generation system

The wine cellar, sheathed in antique barn siding with antique beams and oak storage racks, won **Outstanding Special Purpose Room**, (see photos on opposite page). and two 10 K Yammar gas generators produce power 24/7, and sell excess power back to CL&P.

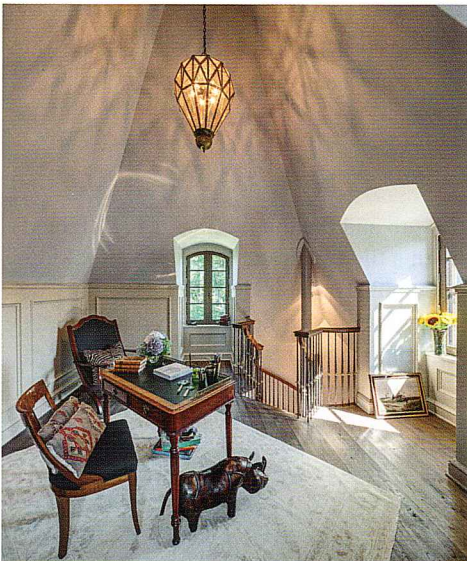

But that's not all! On this same property, Robert Levine and architect, Charles Hilton won **BEST RESIDENTIAL REMODEL \$2-3 MILLION** for transforming a decrepit 80 year old out building into a charming stone, stucco and half-timbered gardener's cottage and greenhouse for the chef owner's farm to table organic garden. (see photos on opposite page bottom) A 260 sf studio was renovated into a beamed office with restored wide plank floors and French plaster walls.
