## CLASSIC STUDY

A **NEW BOOK** SHOWCASES BEST PRACTICE IN CLASSICAL DESIGN

See inside many of the most beautiful new homes built in the United States in the classical style with *The Classical American House* (Images Publishing; \$95). This new title takes you on a tour of new homes and renovations, together with a new apartment fit-out, designed by seven leading exponents of classical architecture in the United States today.

Featuring many of the top names in the industry, including Charles Hilton of the A-List Award-winning firm **CHARLES HILTON ARCHITECTS**, this book is a showcase of best practice in classical design in the country.

Edited by well-known classical architecture commentator **PHILLIP JAMES DODD**, this latest compilation volume offers

an enticing glimpse into the exquisite architectural works of innovative and skilled contemporary classicists. While remaining loyal to traditional classic design, the featured projects within display a remarkable talent for versatility and adaptability within the fundamental classical language of architecture.

The richly photographed book masterfully presents a number of preeminent classicists who offer unique insight into their interpretation of the theory of classical design in their works. This compilation also highlights the collaboration between the architects' applications of excellent detailing, the use of fine material and exceptional craftsmanship, and how, all the while, they are creating a refined and seamless fusion with the surrounding landscape and environment.

## WINNER'S CIRCLE

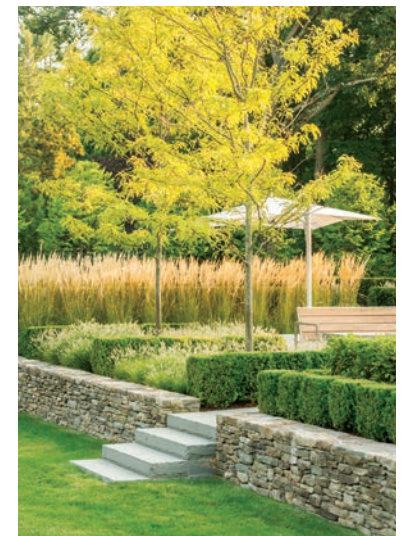

**DHDA** recognized for their award-worthy landscapes

Doyle Herman Design Associates walked away a winner in the 2018 Connecticut Chapter of the American Society of Landscape Architects (CTASLA) Professional Awards. DHDA won the highest honors with the Honor Award for Residential Design for their project "Engaging the Native Landscape" in Rye, New York. In addition, DHDA also won the Merit Award for Residential Design with their project "A New England Respite" in New Canaan.

The awards ceremony took place this past December at the New Haven Lawn Club, and judging and selection of the awards were adjudicated by their peers in the Alaska Chapter of the ASLA. The CTASLA Professional Awards identify, recognize and publicize outstanding examples of recent works by Connecticut landscape architects and designers. *Doyle Herman Design Associates, 125 Greenwich Avenue, Greenwich; 203-869-2900; dhda.com*

### 2018 CTASLA HONOR AWARD FOR RESIDENTIAL DESIGN

For the "Engaging the Native Landscape" project, the home is perched above one of the largest privately owned freshwater wetlands in Rye. The goal of DHDA's landscape design was to engage the wetland as an asset, and concurrently provide outdoor living spaces around the house that reflected the naturalistic feel of the property. On the 3.2-acre property, with one-third of it wetland, it was essential to embrace this natural feature in the design.

### 2018 CTASLA MERIT AWARD FOR RESIDENTIAL DESIGN

For the "A New England Respite" project in New Canaan, DHDA's family-focused design program included the siting of architecture, various site amenities and, of paramount importance, the desire to insulate the property from the surrounding suburban cluster.
